- Self-Leadership
- Results-Oriented
- Effective Collaborator
- Adaptable & Fast Learner

LANGUAGES

- Khmer (Fluent)
- English (Conversational)

REFERENCE

Mann Senn

Full Stack Developer

Phone: +855-12-251-803

Email : senmann@gmail.com

PROFILE

Motivated Full-Stack Developer with a strong foundation in building scalable web apps and writing clean, efficient code. Passionate about performance, user experience, and solving real-world problems. Quick to learn, collaborative, and driven to contribute to team success.

WORK EXPERIENCE

ZINation Cambodia OCT 2022 - PRESENT

Full Stack Developer

- Led the design and development of a complete end-to-end full-stack solution as an individual contributor.
- Collaborated with cross-functional team members to build a system covering both backend and frontend components.
- Designed and implemented real-time systems, including database change data capture (CDC) using Debezium and Kafka.
- Developed backend microservices with Node.js and third-party Zonar APIs for real-time GPS tracking and data processing.
- Designed and implemented an AI agent integrated into the system using Flowise and Temporal.
- Developed multilingual (i18n) solutions to ensure consistent language switching and scalable support for future languages.
- Developed documentation guidelines and project usage standards to enable the team, streamline onboarding, and improve processes.
- Designed and developed sequence, system, and database diagrams to document and visualize application architecture.
- Collaborated closely with the project manager to plan, prioritize, and deliver project requirements.
- Investigated and implemented an AI Agent with openClaw and Claude Cowork.

Web Developer Intern

- Trained in Python, Typescript, React.js, Angular, and React Native.
- Engaged in self-learning, hands-on practice, and mentorship from seniors, project managers, and colleagues.
- Built multiple practice and production-ready apps following best practices in web and mobile development.

EDUCATION

Bachellor Degree 2024 - 2026

- Computer Science at Asia Euro University(A.E.U) school.

Associate Degree 2021 - 2022

- Web development at Passerelles Numériques Cambodia(PNC).
